

KINDERGARTEN

VOLUNTARY CONTRIBUTIONS AND CHARGES 2020

Background

Sections 98, 99,100,101 and 108 of the Education Act 1999 outline the requirements for Government Schools to follow when establishing voluntary contributions and charges. One requirement is for schools to outline by December all the contributions and charges that parents will incur for the child's education in the following year. Outlined below are our best estimates of the **total** cost parents **may** be expected to pay for students in each year at Woodvale Primary School for 2020. To the best of our ability we have estimated costs using historical data and cost indications from book companies and private suppliers of excursions and materials.

School Board Approved Voluntary Contribution	\$50.00
Additional Approved Voluntary Funding Requests:	
ICT Voluntary Contribution	\$30.00
P & C Voluntary Contribution	\$40.00

A range of payment options is available and may be negotiated with the school

VOLUNTARY CONTRIBUTIONS – While the contributions listed are voluntary, we rely on the funds to provide curriculum resources and special programs across the school. Over \$12,000 was collected last year which provided: extra reading series in the senior block, playground equipment for K-3 students and new musical instruments which all year levels access.

We would be grateful if you pay the voluntary contributions which provided extra resources and equipment for your children.

CHARGES – Extra Cost Option— *estimated maximum costs, however may not be realised.*

Students would only incur costs if and when they participate in the particular activity. The amounts listed in the table are the **maximum** amounts that may be charged for the year. Payment is sought at the time of the activity.
